## P R E F A C E

University theses and dissertations provide a wealth of information not readily available to many research workers, since titles may not have been listed, nor individual works abstracted in current publications of abstracts.

This second edition of "Cumulative list of theses and dissertations on Canadian geography" includes titles accepted to 1965, and was compiled in the library of the Geographical Branch under the direction of Mr. W. C. Meyer, present librarian. It does not presume to be complete in every respect, but it is hoped that it will prove a valuable tool in research on Canadian geography. In most cases, photo or microfilm copies of theses may be purchased from the university concerned. Interlibrary loans may also be arranged.

The Geographical Branch wishes to express appreciation to the many university Departments of Geography that have co-operated in this project.

J.D. Ives,  
Director,  
Geographical Branch.

Les thèses et dissertations écrites dans les universités constituent une source précieuse de renseignements. Cependant elles ne sont pas à la portée d'un bon nombre de chercheurs, étant donné que les titres n'en sont pas toujours consignés et que les travaux de particuliers ne sont pas indiqués dans les recueils actuels de résumés.

La deuxième édition de la "Liste cumulative des thèses et dissertations sur la géographie canadienne" renferme les titres retenus jusqu'en 1965, et a été dressée à la bibliothèque de la Direction de la géographie, sous la surveillance du bibliothécaire actuel, W. C. Meyer. La présente liste n'est pas complète à tous les égards, mais nous espérons qu'elle apportera une aide précieuse aux travaux de recherches sur la géographie du Canada. Dans la plupart des cas, des épreuves photographiques ou microphotographiques des thèses peuvent être achetées dans les universités intéressées. Il sera également possible d'organiser un service d'échanges entre les bibliothèques.

La Direction de la géographie désire exprimer sa gratitude aux départements de géographie des nombreuses universités qui ont participé à cette heureuse initiative.

J.D. Ives,  
Directeur,  
Direction de la géographie.
